

2020-21 Back to School Parent Information Sheet

In accordance with the announcement made by the DEECD, all students in Nova Scotia will be returning to school on Tuesday 8th September, 2020.

As detailed within the Nova Scotia Back to School Plan, there will be significant adjustments to some routines and activities that were typical in a normal school year. To help families navigate these changes, we have created this school information sheet for you.

What to Expect at School This Year:

Before School

- **At-Home Self-Monitoring for COVID:** Families are required to monitor children for COVID-19 using the COVID-19 Daily Checklist. The most up-to-date version can be found online at <https://novascotia.ca/coronavirus/docs/Daily-COVID-checklist-en.pdf>. By monitoring daily, you are helping to identify any potential cases of COVID-19 as quickly as possible. A paper copy of the COVID-19 Daily Checklist will be provided prior to school re-opening.

Students need to stay home when they are ill, even if their symptoms are mild. We will be removing attendance-based awards or incentives. If you are unsure if you or your child should self-isolate, contact 811.

- **Remember to pack a face mask and water bottle:** Masks are required for students in Grades 4-12 if they cannot physically distance and required for all students travelling by bus. Each student and staff member will be provided with two face masks.

Also, students who travel by bus, regardless of grade, will be required to wear a mask while on the bus.

Water bottles are recommended as water fountains will not be accessible; bottle filling stations or water coolers will still be available. Sending your child with a full water bottle in the morning is recommended and appreciated.

Getting to School

- Masks are required for all students travelling on buses. Family members travelling on the bus should sit together. Buses will be cleaned twice during the school day and in between each run.
- Once bus students arrive at school, bus unloading will be staggered allowing less traffic entering the school at one time. Students getting off a bus as one group will wash/sanitize their hands as they enter their separate classrooms and join their cohorts within the school.
- Parents who drive children to school will drop off and pick-up students outside the building. Visitor access will be limited to only essential visitors. For our elementary schools, our staff will be waiting to welcome our younger students into the building.

- Please stick to the following drop-off and pick up times for our school:
 - Drop Off between 8:00am and 8:10am.
 - Pick up between 2:20pm and 2:25pm.
- Students arriving late will need to be dropped off outside the main entrance where they will be met by a member of staff.

During the School Day

Hygiene

- Hand Hygiene: There will be an emphasis on hand washing and sanitizing, before & after eating and during the day. Hand sanitizing stations have been installed at main entrances and classrooms without a sink.
- Students who are in grades 4 to 12 will need to wear masks in class if they cannot physically distance, even if they are in their cohort. Every student and staff member will be provided two non-medical masks. If a student forgets their mask, disposable masks will be available.
- There is a “no-sharing” policy on food, personal belongings and their individual school supplies.

School Design

- Students in Pre-Primary to Grade 9 will stay with their class (cohort) throughout the day, where possible.
- Classrooms will have less material and furniture, and desks/tables will be spaced out allowing students to have more physical distance.
- Students will notice additional signage including directional signs to control flow in hallways, common areas, and outside spaces. Signage includes traffic flow arrows, physical distancing reminders, and designated Entrances & Exits.
- Lockers for grades 7-12 will **not** be in use for the 2020-21 school year.
- Cubbies for grades P-6 students will be in use.

School Schedule

- More classes (including Physical Education) will be held outdoors, when possible, to encourage physical movement and support our students’ well-being.
- All students will continue to be able to access healthy options through the school’s Breakfast Program. There will be a focus on individual servings and access that is organized to prevent students from gathering.
- Students in Pre-primary to Grade 9 will eat lunch in their classrooms with their regular class or cohort of students; cafeterias will not be in use for lunchtime for these students. If your child is bringing their own lunch, please ensure it is something they can manage independently to avoid unnecessary handling of items by others. Microwaves will not be available at this time. If students require food from our lunch program, their meals will be delivered to their classroom to limit interactions among cohorts and social gathering.
 - Outside break at recess and the lunch hour will be staggered by class cohorts and areas will be ‘zoned’ to enable distinct cohorts to play together.
- Students in Grades 10-12 will have access to cafeteria service, although lunch options may be reduced. The food services provider will follow public health guidelines. An emphasis will still be placed on keeping groups of students together whilst maintaining physical distancing.

- Students in Grades 10-12 will be allowed off-site for lunch, but will not be able to bring any food back to school. It will need to be eaten off-site.

Illness at School

- If a child feels unwell or begins to exhibit COVID-19 symptoms, a parent or guardian will be contacted for pick-up. **It is very important to ensure that your contact information and other emergency contacts for your child are kept up to date with the school during the school year.**
- Any student who becomes unwell at school will have a separate location in the school to wait to be picked up. Students who become ill during the day will not be permitted to return home on the bus.
- Students who exhibit symptoms on the bus will be required to isolate on the way to school and the bus driver will notify the school administration.
- If a child exhibits COVID symptoms, parents/guardians must contact 811 to receive advice from Public Health on what to do next, including if/when the child can return to school.
- Our schools will continue to monitor illness in schools and will follow direction from Public Health on specific processes. Parents are asked when they are calling in to excuse their child, if they could provide as much detail as they are comfortable, so we can provide Public Health with accurate information on our illness data.
- If a COVID-19 case is identified, the school will act under the direction of Public Health and CCRCE.

After the School Day

- Formal Before and After School Programs will continue for children. Additional information about their programming will be issued by the provider.
- The most recent information about school sports from the NSSAF and Sport Nova Scotia is that there will be no competitive soccer or basketball in the near future.
- Parents/Guardians can help reinforce proper COVID-19 hygiene protocols with children. Please help us to remind children about proper handwashing techniques, cough/sneeze etiquette, how to wear a mask properly, and physical distancing.

More information on COVID Specific Changes for the 2020-21 school year

- **Technology** - Students are able to bring their own device to school for educational purposes. Students who do not have access to a personal device will be provided with one. School-based devices will be cleaned between use.
- **Families with specialized needs** will work together with their school's Student Planning Team. Please contact the school to discuss your child's needs.

We will be sharing additional school-specific information with you soon.

If you have any specific questions regarding your child's return to school, please call us at 657 6235 or email at AylesHG@ccrce.ca or at holmesb@ccrce.ca or at MacDonaldJR5@ccrce.ca
